Mrs. Dorothy Elison
Century Village, Andover L290
West Palm Beach, Fla. 33409

Dear Dorothy,

Once again the Staff of V.N.A. and I have had the pleasure of working with you to present our services to the public. At this point I feel you should be listed with me on the public relations working roster. No patient has been more generous in support of V.N.A. than you.

Your case history includes so much: you have endured multiple medical problems that seemed to occur at the worst possible times in your private life; you have suffered set-backs, failures, depression, and finally widowhood to complete your woes; and worst of all, you've had no local family support.

As you have coped with these problems through the years, your character and personal integrity have been challenged to the utmost. If I were to chose an animal figure for a hieroglyphic to tell your life story Egyptian style, it would be a vibrantly colored Phoenix bird. But in your case you didn't just arise from the ashes and fly off. Instead you turned back and plowed them under to enrich the soil of your new life.

The Staff and Board of V.N.A. join me in thanking you for your tribute to V.N.A. services. We could ask no finer testimonial than what you have given from your superb personal resources.

Sincerely,

Jevne Hosier
Community Relations Coordinator
